14. *Application for permits in Form 6.*—(1) Any person wishing to obtain a permit for the supply to him of a retreaded tyre or the retreading of his used tyres shall, after completing an application in Form 7, have the form of certificate appended thereto completed by the supplier or retreader to whom he proposes to entrust the work, and then submit the application along with the registration certificate of the vehicle to the Area Rationing Authority having jurisdiction in respect of the vehicle on which those tyres are used.

(2) A separate application shall be made in respect of each such vehicle.

15. *Procedure for supply of retreaded tyres and retreading tyres.*—(1) A permit for the supply of a retreaded tyre shall ordinarily be issued only in respect of the replacement of a tyre which is fit for retreading.

(2) A person to whom a permit in Form 6 has been granted by the Area Rationing Authority shall hand over the permit to the supplier or retreader named therein and where the permit is for the supply of a retreaded tyre, shall also surrender free of charge to the supplier or retreader the retreadable tyre for the replacement of which the permit is granted.

(3) No recognised supplier shall, without reasonable cause, refuse to supply retreaded tyres against any permit in Form 6 which specifies him as the supplier; and no recognised retreader shall, without reasonable cause, refuse to retread used tyres against any valid permit in Form 6 which specifies him as the retreader.

(4) Within ten days of taking delivery of the retreaded tyres for which a permit has been granted, the permit-holder shall, unless he is a fleet-owner, produce before the Area Rationing Authority the registration certificate of the vehicle concerned, and the Area Rationing Authority shall enter therein the manufacturer's serial numbers of the retreaded tyres fitted to the vehicle as recorded in the permit. Where the permit-holder is a fleet-owner, he shall produce before the Area Rationing Authority his copy of the return in Form 2, together with a statement showing the manufacturer's serial numbers of the retreaded tyres and of the tyres, if any, surrendered to the supplier, and the Area Rationing Authority shall make the necessary changes in both copies of the return and send back to the fleet-owner his copy of the return.

(5) The retreader to whom a permit in Form 6 is surrendered in accordance with the provisions of clause 13 shall, after endorsing thereon the manufacturer's serial numbers of the tyres received by him and the serial numbers of the retreaded tyres supplied by him, return the permit to the Area Rationing Authority issuing it.

16. *Utilisation of tyres and tubes by stockists.*—(1) No stockist shall utilise any tyre or tube in his possession for fitment to any vehicle whether belonging to him or to another person except under a valid permit in Form 8 issued to him in that behalf.

(2) Any stockist wishing to obtain a permit in Form 8 shall make an application in Form 9 to the Area Rationing Authority having jurisdiction in respect of the vehicle for which the tyre or tube is required. A separate application shall be made in respect of each such vehicle and submitted to the Area Rationing Authority together with the registration certificate, if any, of the vehicle.

(3) The Area Rationing Authority shall, when issuing a permit in Form 8 for the fitment of tyres to a motor vehicle, record in the registration certificate of the vehicle the manufacturer's serial numbers of the tyres to be fitted.

(4) A stockist shall within seven days of obtaining a permit in Form 8 deliver or despatch (by goods train "freight to pay", but otherwise free of charge), to the Government Scrap Rubber Depot specified in the permit the old tyres and tubes, if any, removed from the vehicle.

Provided that where the railway is unable to book the old tyres or tubes, the supplier shall obtain from the station authorities an endorsement to that effect on the forwarding note and send the note as so endorsed to the Government Scrap Rubber Depot.

(c) shall sell or otherwise dispose of any unserviceable tyre or tube except in accordance with the provisions of this Order;

Provided that the Chief or Area Rationing Authority may permit the owner of an unserviceable tyre or tube whose application for a permit is pending consideration to retain it until the application is disposed of.

22. *Disposal of unserviceable tyres and tubes.*—Any person wishing to dispose of an unserviceable tyre or tube shall deliver or despatch (by goods train, 'freight to pay') to the nearest Government Scrap Rubber Depot which shall pay for it at such rates as may be fixed by the Government in this behalf.

23. *Forfeiture of unserviceable tyres and tubes.*—If any person contravenes the provisions of clause 21, any court trying such contravention may, in addition to any punishment to which it may sentence him, direct that the unserviceable tyres or tubes in respect of which the contravention has been committed shall be forfeited to the Government.

24. *Production of vehicles for inspection of tyres and tubes.*—An Area Rationing Authority may require an applicant for a permit under this Order to produce the vehicle in respect of which the application is made for an examination of its tyres and tubes, including any spare tyres or tubes he may have in his possession, and may issue such directions concerning the replacement or retreading of tyres as it thinks fit; and the applicant shall comply with such directions.

25. *Making false statements, etc., in connection with application for permits.*—(1) If a person applying for a permit under this Order makes any false statement in his application, then without prejudice to any action that may be taken against him under rule 117 of the Defence of India Rules, as applied to Mysore the Area Rationing Authority may reject that and any subsequent application for a permit under this Order made by or on behalf of that person.

(2) If a supplier or retreader makes a false statement or gives a false certificate in connection with any application for a permit under this Order, then, without prejudice to any action that may be taken against him under rule 117 of the Defence of India Rules, as applied to Mysore, the Area Rationing Authority may refuse to grant any permit authorising the supply of new tyres or tubes or retreaded tyres by such supplier, or as the case may be the retreading of any used tyres by such retreader.

26. *Repeal and savings.*—The Tyre Rationing Order, 1942, is hereby repealed:

Provided that all proceedings commenced, authorities appointed and action taken under any provisions of the said Order shall be continued, and so far as may be, be deemed to have been respectively commenced, appointed or taken under the corresponding provisions of this Order.

Unless the vendor of any food containing an admixture, addition or deficiency, knows of his own knowledge, that the purchaser is able to read and understand the label, he shall give the purchaser the information contained in the label by word of mouth at the time of purchase.

Section 20 (*e*).—

6. The standards of purity prescribed for milk, cream, butter and ghee are as follows:—

Milk.—

Cow's Milk.—(1) Where a sample of cow's milk (not being sold as skimmed or separated milk), contains less than 3 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine, by reason of the abstraction therefrom of milk-fat or the addition thereto of water.

(2) When a sample of cow's milk or any skimmed or separated cow's milk contains less than 8·5 per cent of milk solids other than milk-fat, it shall be presumed for the purposes of this Act until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

(3) When a sample of cow's milk, whether sold as cow's milk or as skimmed or separated cow's milk, contains less than 0·5 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary

be proved, that the milk is not genuine by reason of the addition thereto of water.

Buffalo's Milk.—(4) Where a sample of buffalo's milk (not being sold as skimmed or separated milk), contains less than 4·5 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the abstraction therefrom of milk-fat or the addition thereto of water.

(5) Where a sample of buffalo's milk, whether sold as buffalo's milk, or as skimmed or separated buffalo's milk, contains less than 9 per cent of milk-solids other than milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of the addition thereto of water.

(6) Where a sample of buffalo's milk, whether sold as buffalo's milk or as skimmed or separated buffalo's milk, contains less than 0·53 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of the addition thereto of water.

N. B.—The minimum limits for nitrogen prescribed above under (3) and (6) are intended to be used in those cases in which a sample of milk, when it is analysed, is so far decomposed that an estimation of the proportion of milk-solids, other than milk-fat in the sample before decomposition will be unreliable, the proportion of nitrogen not being appreciably affected by decomposition.

Unspecified Milk.—(7) Where a sample of milk, separated milk or skimmed milk, is sold or offered for sale or hawked about, without any indication as to whether it is derived from the cow or the buffalo and by comparison with the minimum limits given for the cow's milk in the above, it appears to be adulterated, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine for the reason given in the above rule or rules which are applicable.

Maximum Limit for Dirt in Milk.—(8) Where a sample of milk separated or skimmed milk deposits on standing for a period of 24 hours or less, an amount of visible sediment exceeding five parts per 100,000 (both milk and sediment being measured by volume), it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of its containing an excessive amount of dirt.

Cream.—(9) Where a sample of cream contains less than 20 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine.

Butter.—(10) Where the proportion of water in a sample of butter exceeds 20 per cent, it shall be presumed for the purposes of this Act, until the contrary be proved, that the butter is not genuine by reason of the excessive amount of water therein.

Ghee.—(11) Where the proportion of water in a sample of ghee exceeds one per cent, it shall be presumed for the purposes of this Act, until the contrary be proved, that the ghee is not genuine by reason of the excessive amount of water therein.

Section 20 (*f*).—

7. (1) No person shall add water or any dried or condensed milk or any fluid reconstituted therefrom or any skimmed milk or separated milk to milk intended for sale, and no person shall, by himself or by any servant or agent, sell or offer for sale or hawk about, any milk to which any such addition has been made.

(2) No person shall abstract any ingredient from milk, without giving due notice of the same, in an unambiguous manner, of the fact of such abstraction therefrom, as prescribed in rules under Section 20 (*d*).

6. The standards of purity prescribed for milk, cream, curds, butter and ghee, and tea and coffee are as follows:—

Milk.—

Cow's Milk.—

(1) Where a sample of cow's milk (not being sold or offered for sale as skimmed or separated milk), contains less than 3 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved that the milk is not genuine by reason of the abstraction therefrom of milk-fat or the addition thereto of water.

(2) Where a sample of cow's milk, whether sold or offered for sale as cow's milk or as skimmed or separated cow's milk, contains less than 8·5 per cent of milk-solids other than milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

(3) Where a sample of cow's milk, whether sold or offered for sale as cow's milk or as skimmed or separated cow's milk contains less than 0·5 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

(4) Where a sample of cow's milk, whether sold or offered for sale as cow's milk or as skimmed or separated cow's milk, contains less than 0·5 or more than 0·75 per cent of ash, it shall be presumed for the purposes of this Act until the contrary be proved that the sample is not genuine by reason of the addition thereto of water, or the addition of extraneous solids, as the case may be.

(5) Where a sample of buffalo's milk (not being sold or offered for sale as skimmed or separated milk) contains less than 4·0 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the abstraction therefrom of milk-fat, or the addition thereto of water.

N.B.—The minimum limits for nitrogen prescribed above under (3) and (7) are intended to be used in those cases in which a sample of milk when it is analysed is so far decomposed that an estimation of the proportion of milk-solids other than milk-fat in the sample before decomposition will be unreliable, the proportion of nitrogen not being appreciably affected by decomposition.

(8) Where a sample of buffalo's milk, whether sold or offered for sale as buffalo's milk, or as skimmed or separated buffalo's milk, contains less than 0·60 or more than 1·00 per cent of ash, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water, or the addition of extraneous solids, as the case may be.

Curd from Skimmed (Cow's) Milk.—

(13) Where a sample of curd from skimmed (cow's) milk, whether sold or offered for sale as curd from skimmed (cow's) milk, contains less than 6·1 per cent of total solids and more than 3·28 per cent of acidity in terms of lactic acid, it shall be presumed for the purposes of this Act, until the contrary be proved, that the curd is not genuine by reason of the addition thereto of water.

Curd from Skimmed (Unspecified) Milk.—

(16) Where a sample of curd from skimmed milk is sold or offered for sale or hawked about, without any indication as to whether it is made of cow's or buffalo's milk and by comparison with the limits prescribed above under (13) for curd from skimmed (cow's) milk, it appears to be adulterated, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine.
